

## Q&A with DeVaughn James Injury Lawyers

Dustin DeVaughn

**Q. "What do I do after being involved in a wreck?"**

A. The first thing you need to do is remain calm and check on everyone involved to determine if they are injured. Immediately contact the authorities to ensure that help is on the way. Be sure and seek medical attention if you are injured. If the area is safe, take photos of any damage to the vehicles. As soon as you can, give our office a call and DO NOT talk to any insurance company, even your own. These simple steps will help ensure your rights are protected!

**Q. "What do I do if the person at-fault for the wreck doesn't have insurance?"**

A. Do not worry even if the driver who caused your accident has no auto insurance, if you have a valid Kansas Insurance policy, that policy contains coverage for an uninsured driver. It is mandatory in Kansas and you are paying for this coverage every time you pay your insurance bill. Do not talk to your own insurance company before you talk to an attorney, the insurance company knows you have uninsured motorist coverage and will be working to reduce the value of your claim. Every day our attorneys are helping people who have been hurt by uninsured drivers.

If you were injured due to someone else's negligence, we know you may have questions about your potential case!

DeVaughn James Injury Lawyers is committed to the safety of our community and dedicated to holding drunk drivers accountable for injuring innocent victims. We want to help prevent DUI accidents from ever happening and help people make the right decision to NOT DRINK AND DRIVE. When people register in our Think Before U Drink program, they are helping ensure the safety of themselves and everyone else on Kansas roads! In January of this year, nearly 300 people in Wichita registered for a FREE Uber ride home on New Year's! That's 300 times the Think Before U Drink program prevented a possible disaster. Keep an eye out for upcoming events and information on how you can get a free ride!

## SAFETY TIPS FOR DRIVERS SHARING THE ROAD WITH MOTORCYCLISTS

### DOUBLE CHECK YOUR BLIND SPOTS

Motorcycles are often more difficult to spot in your mirrors due to their size and shape. Regularly check these blind spot areas through your windows and mirrors.

### STAY IN YOUR LANE

No matter how small motorcycles can be, they need the same amount of room in a lane as a vehicle. Give a motorcyclist plenty of room when you approach them, especially if you are approaching them from behind.

### UNDERSTAND HAND SIGNALS

Motorcyclists often use hand signals to let other drivers know their next move on the road. Familiarize yourself with common hand signals.

Follow these safety tips to keep yourself and others safe on the road!
